

# Introduction

## **Purpose:** Provide a Single Stock Fund (SSF) Program Orientation

### **Topics:**

- SSF Background & Vision
- Milestone 1&2 Environment
- SSF Milestone 3 - What Changes & What Doesn't
- Quick Updates

### G4's TOP PRIORITIES

➤ CS/CSS TRANSFORMATION	➤ <b>SINGLE STOCK FUND</b>
➤ HQDA REDESIGN	➤ NATIONAL MAINTENANCE PROGRAM
➤ READINESS	➤ RECAPITALIZATION
➤ SPARES	➤ LOGISTICS AUTOMATION
➤ PEOPLE	➤ UNIT SET FIELDING
➤ AVN AND AMMO FAA's	➤ AC/RC INTEGRATION

POC: Mike Mannion/DALO SSF/617-1976/mannionm@hqamc.army.mil DSN: 767-1976 3 of 30

**Sustaining The Transforming Army**

# Definitions

## *AWCF:*

**Revolving fund financial management structure which promotes total cost visibility and full cost recovery of support services rendered to the Army's operating forces**

DA Proponent: ABO

***Funds:  
Providing  
essential  
industrial goods &  
services***

## *SSF Initiative:*

**Process reengineering to integrate and streamline specific Secondary Item (repair parts, assemblies, and consumables) logistics and financial functions which creates a single fund above PLL/Shop Stock**

DA Proponent: G-4

***Process to Tear  
Down Barriers:  
Transforming  
Logistics and  
Financial Processes***

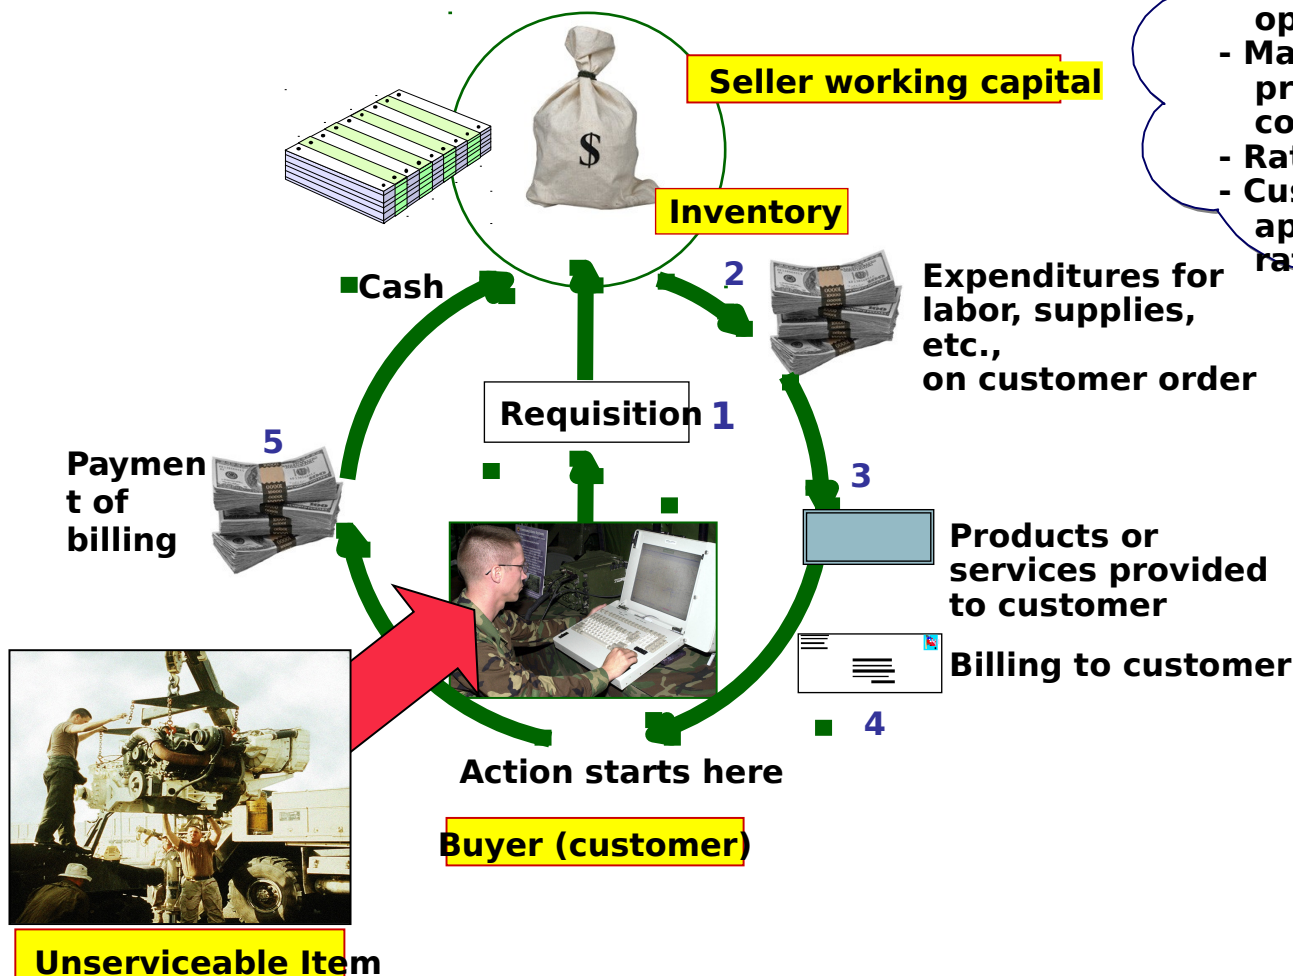

# How the AWCF Works

## Key Points:

- Customer-Provider relationship
- Recover full cost of operations
- Make both customers & providers more aware of costs
- Rates stabilized in FY
- Customers budgeted in appropriated funds to pay rates

## Revenues Expenses

Sales

-Inventory  
-Costs of doing business

## ***Key Points***

- **AWCF Supply Management Army (SMA) Account -- financial structure used to purchase, repair, and hold spare & repair parts inventories -- ABO manages, AMC executes**
- **SSF is reengineering AWCF-SMA processes -- integrating ownership & visibility of spare parts from multiple layers to National management**
- **SSF Milestone 3 environment optimizes Secondary Item management -- but will require active Partnership & Stewardship between Field Commanders and the National level**

# SSF Strategic Focus

## Process Re-engineering

*Tearing Down Barriers:  
Transforming Army  
Logistics and Financial  
Processes*

**Delivering integrated  
Logistics & Financial processes to  
better manage spares inventories... A  
Transformation Enabler**

**SSF**

**National Logistics  
Management  
Supply Enabling Maintenance  
Management**

• Multiple Inventory Locations:  
• Depot  
• Theater Army  
• Corps  
• Installation  
• ASG

Single Ledger & Logistics Chain Management

Regional Level  
• Depot  
• Contractor  
• Below Depot  
• DOL/ASG  
• FRA/SRA  
• CSMS  
• Field Level  
• Unit  
• DS

Smarter Repair/Buy Directions

**Unit PLL & Shop Stock**

**AWCF  
Inventory**

**O&M  
Inventory**

### **Enhanced Warfighter support**

- Global access to critical stocks
- Robust Reachback Supply Operations

### **AWCF-SMA funds ASLs**

### **Improved Decision-making**

- Visibility of Assets -

### **Requirements - Finances**

### **Integrated - Seamless Process**

- Logistics & financial visibility
- Active & Reserve Component

### **ASLs**

- Requirements determination

### **Streamlined**

- Eliminated multiple financial transactions
- Eliminated duplicate automated systems

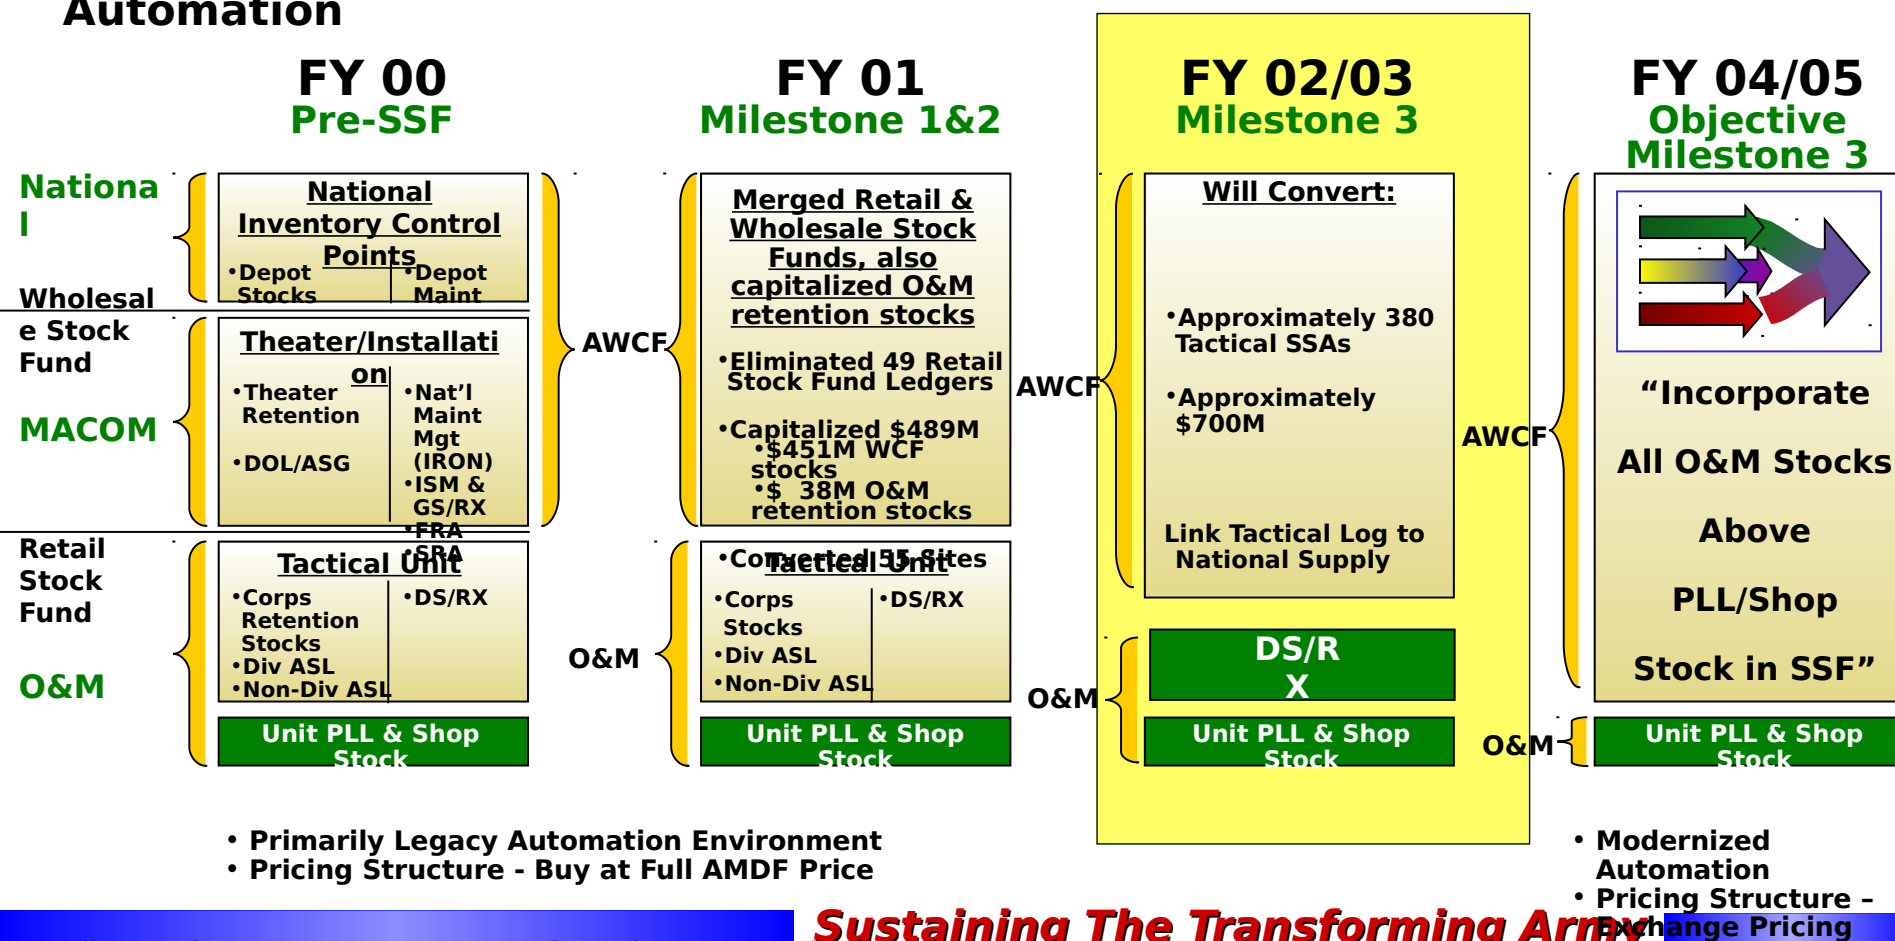

**Sustaining The Transforming Army**

# The SSF Vision: A Phased Campaign Plan

## The Objective

- A Single, Integrated Logistics and Finance Process, Supported by Seamless Automation

**Sustaining The Transforming Army**

# SSF Schedule

## MS 3 Timeline

## MS 1&2 Timeline

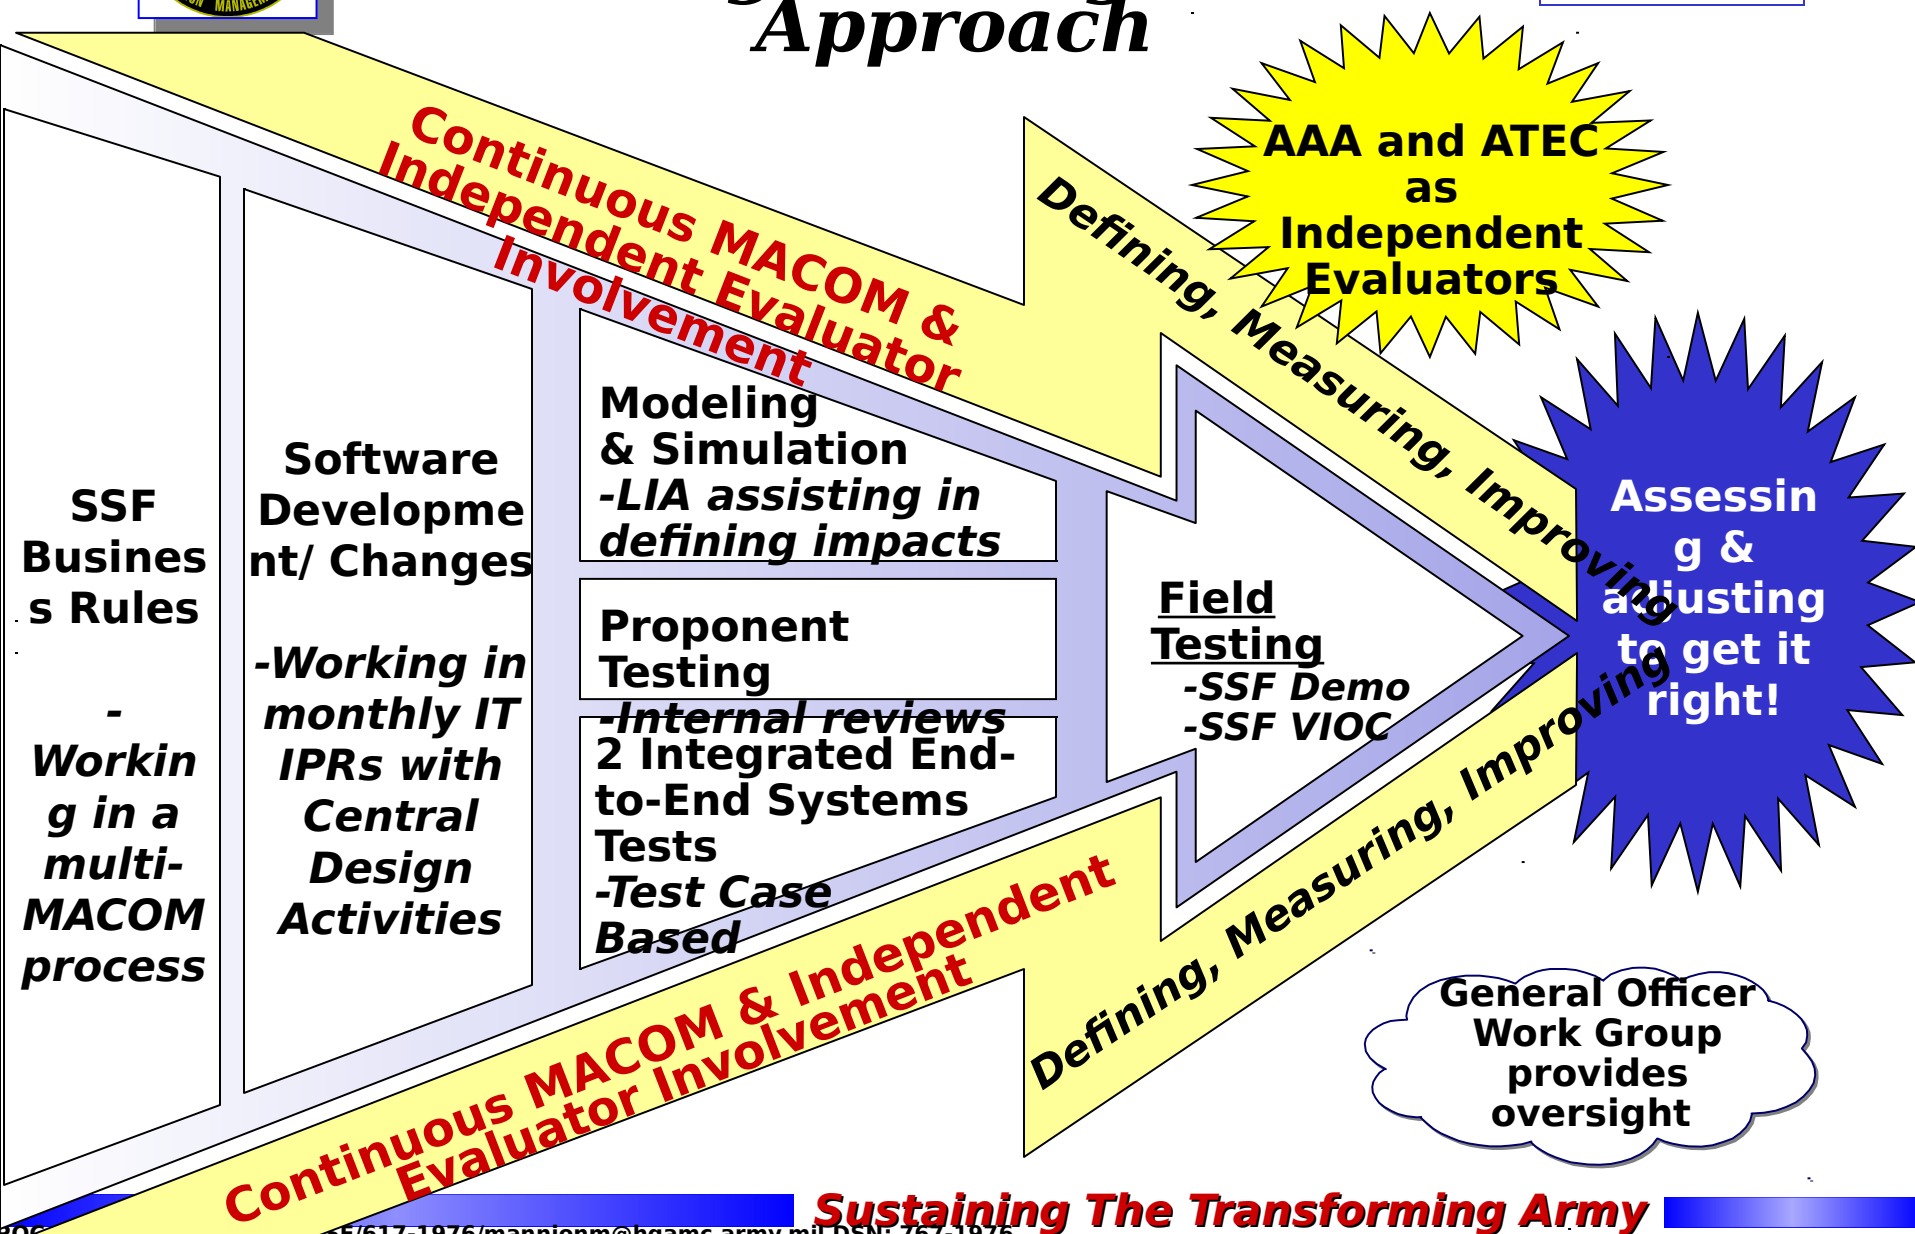

**Sustaining The Transforming Army**

# Change Management Approach

# Strategic Automation Framework

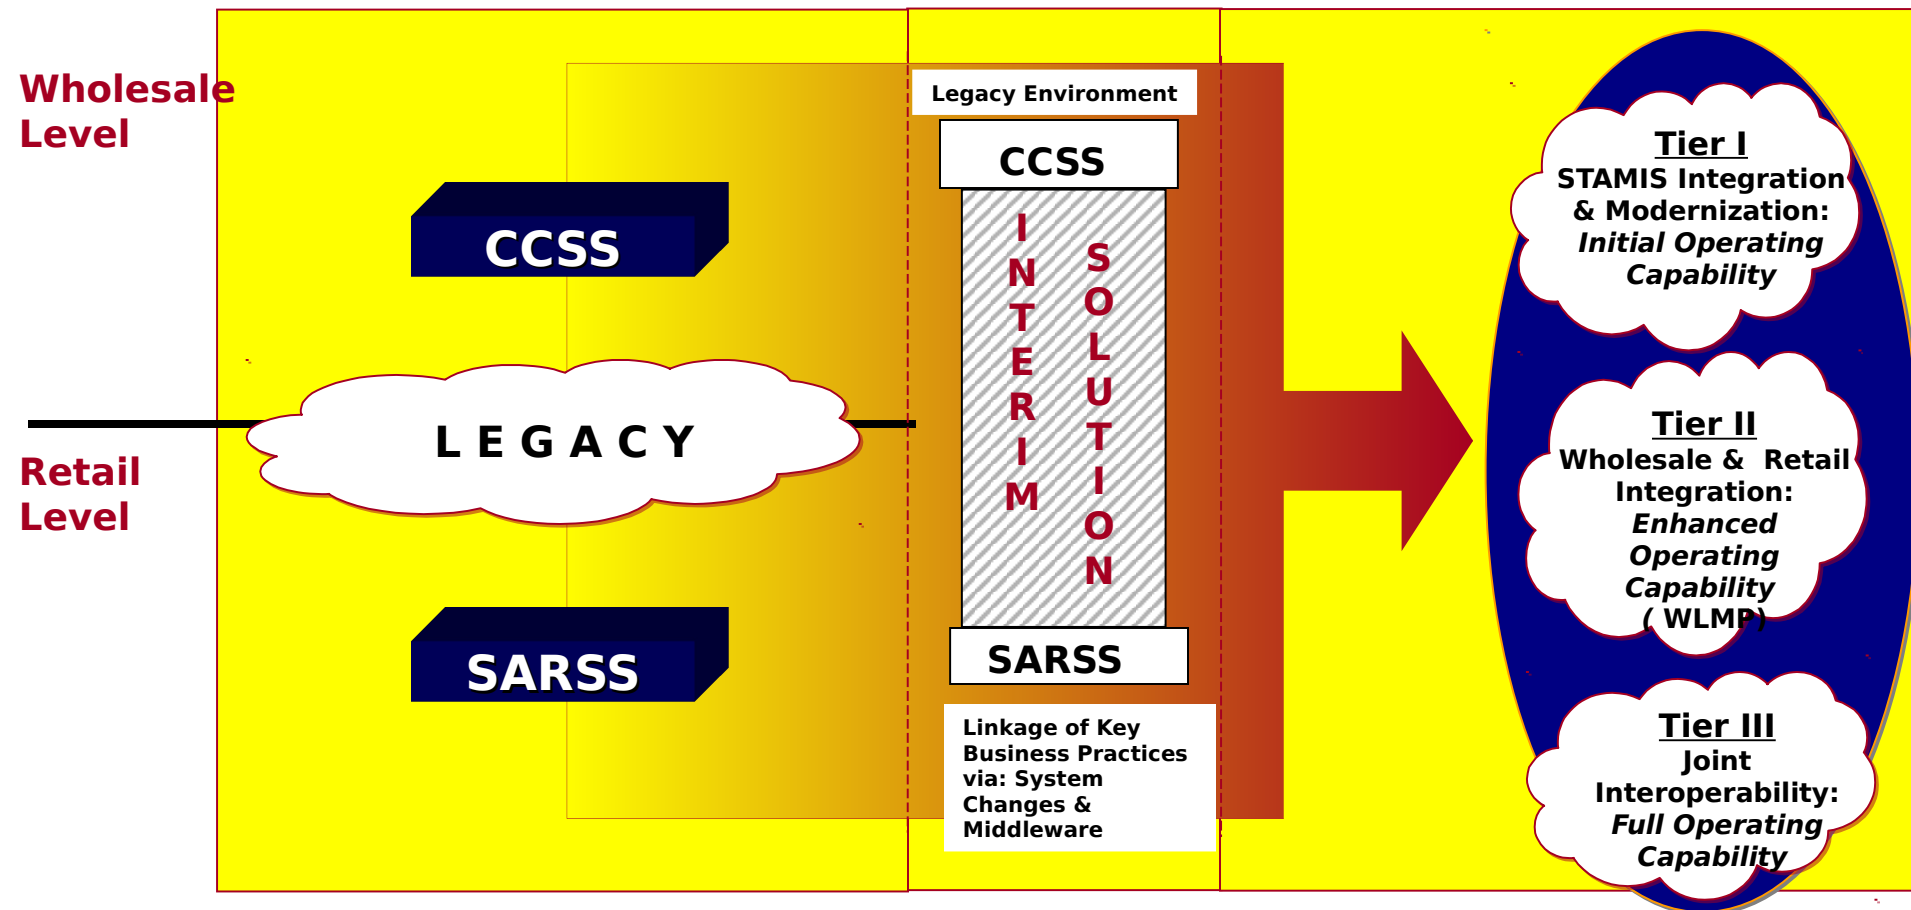

At End State, SSF delivers “Seamless Logistics & Finance Systems with a Single Manager Supported by a Single Automation Architecture”

Pre-SSF

Interim  
SSF

Future  
GCSS-A

# ***Changing the Way We Do Business: Milestones 1&2***

- **Single Point of Sale**
- **Single Credit Process**
- **Requirements & Visibility**
- **Enabling NMM**

## **What was promised**

## **What was enabled**

**Increased automated inventory visibility and mechanisms to access AWCf inventories to meet Warfighter requirements**

**Elimination of duplicate financial layers & processes, streamlined AWCf inventory management**

**Predictable, stabilized, and simpler Price & Credit processes**

**Enabling National Maintenance Management**

• **Linked field automated systems to the National level (SARRS-CCSS)**

• **Increased inventory visibility**

• **Redistributed \$117.2M in FY 01**

• **Eliminated 49 general ledger accounts**

• **AWCF financials on one set of books**

• **Implemented a CFO compliance credit policy**

• **Reduced installation financial reconciliations by eliminating retail stock fund general ledgers**

• **Leveraged asset and demand data visibility to optimize capabilities based on Army need**

• **Reimbursement for repair of AWCf items**

# SSF Asset Visibility Environment

## Pre-SSF

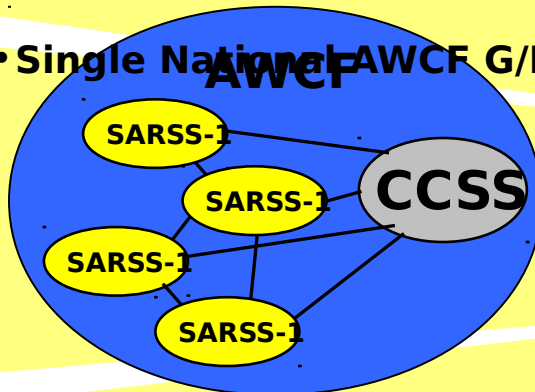

- Limited National Visibility of Stocks
- Retail operation independent
- 55 RSF General Ledgers (G/L)

- MACOMs became entrepreneurs
- Tiered Credit Processes
  - AMC
  - DA
  - MACOM

## Current (MS 1&2)

- National Visibility of Stocks
- Wholesale processes through Installation
- Single National AWCF G/L

- 24/7 RTRP (Req/Status)
- Single Army Credit Process
- AWCF Sites
- Beneficiary

## Future (MS 3)

- Global Visibility of Stocks
- Wholesale processes through Tactical SSA
- Single National AWCF G/L

- 24/7 Expanded Real-Time Processing
  - All Accountable Transactions
- Tactical SARSS-1
- Beneficiary

**Sustaining The Transforming Army**

# Key Measures

## Improving Customer Wait Time

### AWCF Customer Wait Time (CWT)

(Class IX)

#### RATING: Green

**Status:** Army overall AWCF CWT for Dec 01 was 15.2 days.

**Measurement Standard:** FY 00 baseline (measured in days)

**Ratings:** Green: Army performance better than baseline. Amber: some fluctuation or inconsistency. Red: worse than baseline

#### Analysis:

• CONUS CWT was 2.5 days better than the baseline, but was slightly higher than Nov 01 due to filling aged backordered items  
• OCONUS CWT rose after improving in Nov 01. This is principally attributable to filling of aged backordered items

FY 00 Baseline		ARMY			
Percentile	CWT	Oct 01	Nov 01	Dec 01	
50%	8	7	7	7	
75%	14	12	11	11	
95%	78	49	56	65	
Mean	18.3	13.4	14.0	15.2	

FY 00 Baseline		CONUS			
Percentile	CWT	Oct 01	Nov 01	Dec 01	
50%	7	7	7	6	
75%	13	11	11	10	
95%	77	46	55	63	

Mean	17.6	12.9	13.7	14.2	
------	------	------	------	------	--

FY 00 Baseline		OCONUS			
Percentile	CWT	Oct 01	Nov 01	Dec 01	
50%	14	26	8	20	
75%	30	36	18	38	
95%	95	95	106	102	

Mean	27.8	31.3	22.9	32.4	
------	------	------	------	------	--

## Utilizing Army-owned Materiel

### AWCF Inventory Redistribution

#### RATING: Green

**Status:** Total AWCF inventory redistribution in Dec 01 was \$22.4M

**Measurement Standard:** Projected SSF year 2 inventory redistribution (above the Requisitioning Objective (RO)) was approximately \$16M. We exceeded this target in the first quarter, FY 02. No baseline exists.

**Analysis:** AWCF redistribution continues to support the Warfighter requirements. Redistribution of excess stocks (above RO) means we are achieving procurement offsets by cross-leveling stocks. Redistribution below the RO means we are penetrating ROs IAW the SSF Search Pattern to meet high priority requirements.

Since  
SSF implementation,  
redistributed  
over \$191.8M

Data source: LOGSA/LIF

AWCF Redistribution Summary - Dec 01			
Above RO	Requisitions	7221	Dollar value \$ 15.9M
Below RO	Requisitions	587	Dollar value \$ 6.6M
Totals		7808	\$ 22.5M

AWCF FY 02  
redistribution  
over \$79M

# Moving to End State

- **Single Point of Sale:**
  - Eliminate multiple points of sale
  - Link O&M customers to the National level
- **Single Credit Process:**
  - Eliminate multiple credit processes
  - Simplify & standardize credit
- **Integrated Regs Determination:**
  - Expand National visibility of AWCF inventories
  - Use that visibility to enable smarter decisions
- **Enabling National Maintenance Mgmt:**
  - Partnering with the field to repair the right AWCF items at the right place, at the right time

## MS 1&2

✓ DOL/ASG inventories

became  
AWCF

✓ Transitioned to National needs-based NSN credit  
✓ Eliminating  $\leq$  \$50 credit

✓ DOL/ASG RO/RL rolled up to CCSS

✓ Local Maintenance became source of National supply

## MS 3

Extending SSF to Tactical SSAs

Extending AWCF credit to tactical customers

Extending SSF to Tactical SSAs

Nat'l Maint. Work Load tracking; SAMS data visible

***Sustaining The Transforming Army***

# ***SSF MS 3 Focus***

- ✓ **In the SSF MS 3 environment, overarching logistics responsibilities will remain unchanged: CSS units will continue to orchestrate logistics support to meet Warfighter requirements**
- ✓ **There will be changes in how that support is provided**
- ✓ **The Army approach is to minimize the impact of these changes by making improvements to automated systems**
- ✓ **The majority of these changes will be transparent to non-CSS units -- and to SARSS-I operators**

## ***SSF MS 3 Key Points***

- **Warfighter will determine readiness requirements**
- **Tactical SSAs will not be routine source of supply for the National level**
- **SSF will leverage National visibility of tactical ASL activity to make improved buy, redistribute, and repair decisions**
- **Sizing decisions for tactical ASLs no longer O&M driven**
- **ASL replenishment will be an AWCF responsibility (except DS/RX)**
- **Tactical ASL AWCF inventories are deployable**
- **Major Automation features:**
  - **SSF Middleware will link tactical and National legacy systems**
  - **Restored RON-DON functionality at DOL/ASG SARSS-1 (Cdr's option)**
  - **Restored functionality at DOL/ASG SARSS-1 to release partials**
  - **New files will be available to manage DS/RX programs**

# Milestone 3 Environment

## What's Not Changing

- AWCF redistribution IAW search matrix/penetration rules (except IPD-01)

- Granting AWCF credit
- Item management
- RD&ES

- Credit NSN based
- Redistribution IAW search matrix/ penetration rules
- ASL stockage determination process
- AMC Reps on Installation

- Commander drives readiness
- Sets DS/RX program
- Stockage determination
- Determines O&M relationships for referrals
- ASL inventory deployable
- RON/DON Cdr's Option
- Partials at DOL
- DS/RX program O&M funded
- Maintenance-to-Maintenance
- Credit NSN-based
- Funds control in SARSS

## National Level

## Installation Level

## Tactical Level

## What's Changing

- Expanded ASL Visibility/Tactical input
  - AWCF inventory affecting transactions

- Directs IPD-01 redistribution

- Visibility of DS/RX activities, contract repairs, and maintenance transactions

- Partials at DOL
- RON/DON at DOL
- Accept RC turn-ins
- AWCF funds ASL replenishment
- Non-DS/RX O&M stock capitaliz

- Standardized automatic retrograde

- AWCF Credit (except DS/RX)

- DS/RX management tools

- O&M NIIN table replaces USVE

- MWF forecasting tool for DS and GS maintenance

- Nationally-directed Penetration of ASL for IPD-01 requisitions

- Visibility of Main. transactions in SAMS

- SARSS Recon

***Sustaining The Transforming Army***

# ***DS/RX Strategy***

## **Maintenance Workload File “The Master List”**

- Identifies repairable NIINs as DS/RX (O&M)
- Manage GS AWCf repair program, quantity, retrograde
- Planned repair quantity for GS or DS repair programs

## **OMA NIIN File “A Tactical**

- Distinguishes what is O&M transaction by NIIN
- Identifies DS/RX activities by RIC
- Enables tactical retrograde and referral flow
- Fund management - identifies transaction as O&M - routes for fund check prior to release

- 2 new files will define what is AWCf & what is O&M:
  - They will enable NIIN level decisions for flow of retrograde, O&M referrals and proper financial processing
- Files will work in synchronization with new O&M RICs and DODAACs to identify O&M transactions
- Files will be loaded with SSF MS 3 SCP prior to implementation
- Tables will reflect MACOM/Cdr's DS/RX decisions

# ***DS/RX Key Points***

- **Tactical ASLs will have both AWCF and O&M inventories**
- **MMC managers make changes (same as today) to DS/RX List**
- **Decisions to make changes in the DS/RX program during the execution year continue to have a funding impact**
- **DS/RX decisions after conversion to SSF MS 3 have the same funding impact, but differ in magnitude of impact**
- **Commanders need to continue to make informed DS/RX program decisions based on funding and readiness impacts**

## Today

- An O&M decision to add/delete items from DS/RX list
  - Add DS/RX NIIN - no longer buy (except washouts)
  - Delete DS/RX NIINs - Buy item

## Tomorrow

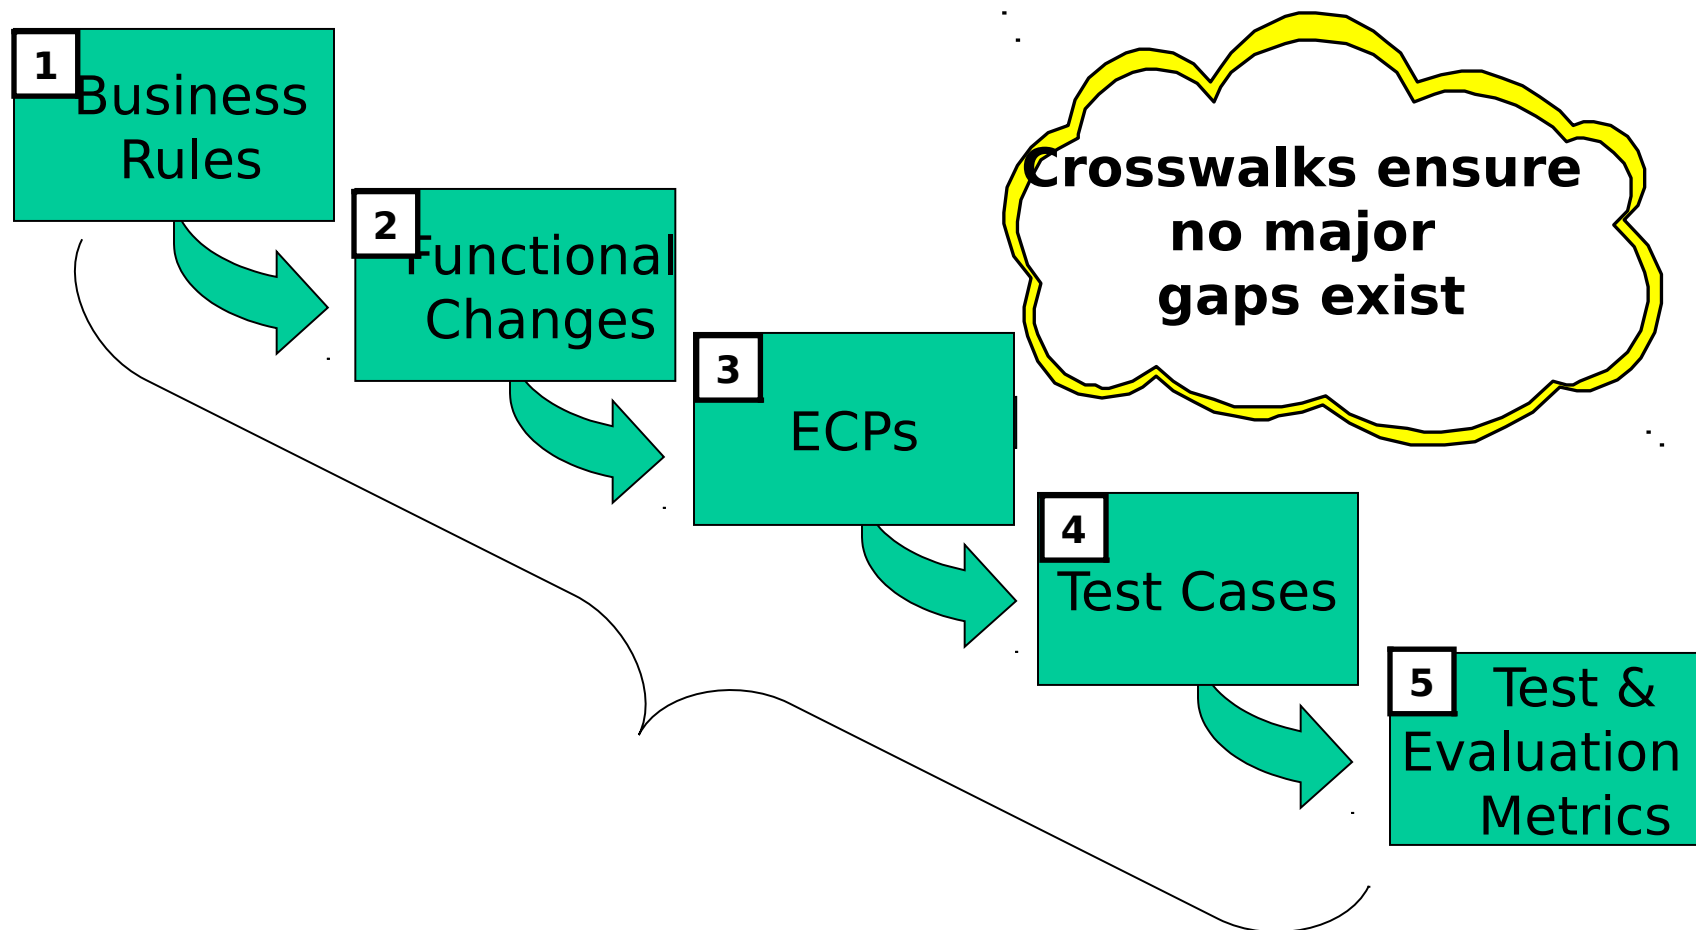

- **Add DS/RX NIIN**
  - Must purchase on hand -- on order inventory
  - No longer buy item (except washout)
- **Delete DS/RX NIINs**
  - On hand -- on order will be capitalized
  - Buy Item (same as today)

**Bottom Line: Decisions to add, delete should be readiness based**

***Sustaining The Transforming Army***

# *Traceability: Key to Our Success*

# Test & Evaluation

**All Software Completed**

**Software Functional Testing**

Proponent Internal Testing Process:

- CCSS
- SARSS
- Middleware
- DAAS
- ISB

Successful Test

**Systems Integration Test (SIT) Readiness Review**

- Test Plan Completed
- Test Objectives Est.
- Environment Ready

Individual Systems Software Ready  
PD Approval

**SIT**

• End-to-end Run of Test Cases Keyed to What Changes:

- DS/RX
- RON/DON
- Partial
- Recons

All CDAs & MACOMs  
End-to-end SIT Concludes

**Army-Wide Impl.**

**Implementation Readiness Review**

- Prep for Army-wide Implementation
- All CDAs & MACOMs
- VIOC Objectives Met
- No Pri -1 PRs Open
- Waivers for PRs with Work-Arounds Approved by DA Deputy G-4

Army Leadership Decision

to Implement Army-wide

**VIOC**

- Implement Ft. Hood, TXARNG & selected USARC units
- Verify Conversion Process
- Verify Software
- Verify Business Processes
- Immediate Response to PRs

90 Day Data Collection & 60 Day Analysis Period Concludes

**Verification of Initial Operating Capability (VIOC) Readiness Review**

- Evaluation Plan Complete
- Impl. Plan Complete
- SIT Objectives Met
- No Critical PRs Open
- High & Moderate PRs Documented
- Appropriate Waivers Approved

DA Deputy G-4 Decision to Start VIOC in Consult with GOWG

**Sustaining The Transformation**

## *Quick Updates*

- **Credit for Items Less than \$50**
- **Conversion Sequence of Events**
- **Systems Integration Testing (SIT)**
- **Reserve Component Retrograde**
- **Deployments During the SSF Transition**
- **SSF Problem Reports**
- **Year-end Processing**

# ***Zero Credit for Items ≤ \$50***

- **Bottom line:** Army is eliminating credit for transactions with unit dollar value of \$50.00 or less
- **Key points:**
  - **1 Feb 02:** Policy implemented for NAMI
  - **1 Mar 02:** Policy will be implemented for AMI
  - Initiative is fully funded for FY 03
  - Department will review FY 02 bill at the mid-year review
  - Will reduce field workload in tracking low dollar value credit transactions

# *Conversion Actions*

- **Bottom line:** Conversion events must be closely managed by III Corps & Fort Hood activities to ensure sustainment of ongoing operations
- **Key points:**
  - Process is sequential & event-driven
  - Follows detailed SSF Sequence of Events
  - Conversion Team is on site, will remain thru C+120 (change from MS 1&2)
  - Dates are established - follow them!

• Now at C-110!  
• Leadership attention & SSF-Fort Hood Partnership are key to success

# ***MS 3 Systems Integration Test (SIT)***

- **Bottom line:** All actions appear on track to begin SIT 22 Feb 02
- **Key Points:**
  - SIT Readiness Review being conducted 11&12 Feb 02
  - Objective is to assess readiness to commence Integrated Testing
  - 5 areas will be reviewed
  - SIT will test numerous functions/processes.
    - Obligations: Partial issues from AWCF SSAs, proper recording of AWCF and O&M obligations
    - Overall systems processing
  - SSF GOWG will assess readiness to commence VIOC at conclusion of SIT

✓ Test Plan  
✓ Test Schedule  
✓ Test Facilities  
✓ ECPs  
✓ Problem Reports

# ***Reserve Component Retrograde***

- **Bottom line:** Assessing the volume to project impact
- **Key Points:**
  - **SSF MS 3 Business Rules** call for RC units to be able to turn-in Class IX to installation SARSS-1 (DOL)
  - **USARC VIOC plan:**
    - Retrograde to Fts. Dix, McCoy & Gillem (same as today)
    - Negotiate any Direct Customer turn-ins with Ft. Hood
  - **ARNG VIOC plan:**
    - Retrograde serviceables to Ft. Hood
    - Retrograde selected unserviceables to source of repair or DRMO -- not to DOL
  - **Dir, SSF will monitor VIOC impacts to further develop Army MS 3 retrograde concept**

# ***Deployments During the SSF MS 3 Transition Period***

- **Bottom line:** Field-level TTPs do not change as a result of SSF implementation -- but the environment changes
- **Key Points:**
  - SSF, FORSCOM, and CASCOM partnering to delineate any overarching TTPs in TRADOC & SSF planning documents
  - Results of 29 Jan 02 Deployment meeting:
    - Reviewed pre-VIOC, VIOC, and post-VIOC scenarios & deployment options
    - Can support deployments in the new SSF env.
    - III Corps, FORSCOM, and DALO-SSF will monitor deployment changes and intensity, will adjust plans as necessary

• FORSCOM  
• III Corps  
• CASCOM  
• DALO-SSF

# Projected Problem Report Closure

As of 8 Feb 02

Total	12	17	7	7	0	2	2	1	3	51

***Scheduled Fixes***

***In Analysis***

***Sustaining The Transforming Army***

# *Year-end Processing*

## **Concerns:**

- Uninterrupted processing
  - Manual adjustments
- 
- **Bottom line:** Solution will be in place for VIOC
- 
- **Key Points:**
    - ASA(FM&C) assessing options to continue processing & release of on-site AWCF materiel at year-end cutoff w/o manual accounting adjustments
    - Solution will require OSD Comptroller review/approval
    - Fort Hood will assist in defining & testing the Army solution

# *Perspectives*

- **III Corps & Ft. Hood already beneficiaries of SSF!**
  - **The SSF search pattern has found and redistributed stocks to meet your priority requirements**
  - **Customer Wait Time rates across the Army are improved in every measurable category**
  - **Credit is stabilized and predictable**
  - **Numerous previously deferred SARSS ECPs have been fielded and validated**
  
- **We have a sound VIOC test plan & are committed to being a full partner in making this operational test a success**
